

An Incredible Opportunity to Make a Huge Difference By Participating in a 3 for 1 Matching Program

The Israeli Government has increased its matching program for JobKatif to a 3:1 ratio. For every \$100 contributed, JobKatif will receive a total of \$400.

The Government has realized that the only organization that has year-in and year-out successfully put people's lives back in order is JobKatif.

- The organization's achievements include helping 1600+ people find work, assisting in opening 170+ businesses, and sending 300+ people to job retraining courses.
- JobKatif's challenges are that 900+ families are still unemployed or underemployed and that 85% are still living in temporary caravan-like structures.

At Shomrei, a year ago we all had the opportunity of listening to Divrei Torah from Rav Yosef Zvi Rimon, the founder of JobKatif, who has been volunteering his time for the past 5+ years in restoring dignity to the lives of the former settlers of Gush Katif and the Northern Shomron.

On JobKatif's website: www.jobkatif.org, there is a link to Stories of Resilience, which captures the stories of 33 individuals who have managed to rebuild themselves professionally and to regain self-sufficiency. It has been a long, arduous process, but JobKatif has been by their side for the past five years, helping them rebuild their lives, which were nearly destroyed from the Disengagement.

We can all assist JobKatif in continuing its successful work. Contributions can be made to the Shomrei Israel Fund, earmarked JobKatif. All donations are greatly appreciated. Thank you for your consideration.
