

Big Brother Program for IDF Families

Talmud Torah Hadar Yosef in Eli is a learning center for boys age 6-14. The student body numbers 270 students and is expected continue growing within the next few years. The Talmud Torah serves the residents of the Binyamin Region. Living in Eli are 60 IDF families. The husbands serve in the IDF either as career officers or are completing their compulsory service.

Among the student body are 21 students whose fathers are career officers in the IDF and two students who lost their fathers in combat. (The sons of Roi Klein HY"D and Eliraz Peretz HY"D). The parental role of learning with their children and reviewing their school work is oftentimes unfulfilled.

In order to address this need, the Talmud Torah has decided to begin an educational program and assign a "big brother" to each student in order to learn together instead of the father who is away.

The meetings will take place twice a week, an hour each time and will be led by post army Yeshiva Students.

Talmud Torah Hadar Yosef is seeking a donor who will underwrite the program or any part thereof .

An annual scholarship for one student is \$800

The cost of the entire program is \$16,800

We appreciate your consideration for this special act of Chesed.
